

Don't pick on the little guy.

Stop the Ban on Small Bottles

Towns across Massachusetts are considering bans on small liquor bottles. Here is what you need to know:

A one-off packaging ban **would not end littering** in our town.

It would deprive our business community of significant sales by **sending customers to other towns** in an economic downturn.

It would also mean **fewer options** for residents looking for affordable, portion-controlled spirits.

We can find common sense solutions to making the streets cleaner, without damaging our local economy.

Pick up Massachusetts. Don't pick on the little guy.
